Sustainability of Polycotton Blend

The school uniforms are made from a high-quality polycotton blend, consisting of recycled polyester and ethically sourced cotton. This fabric offers durability, comfort, and a reduced environmental footprint, aligning with our commitment to sustainability.

Sustainability Benefits

- **Recycled Polyester**

Made from post-consumer plastics such as recycled PET bottles, this reduces reliance on virgin fossil fuels and diverts plastic from landfills and oceans.

- **Ethically Sourced Cotton**

Our cotton is sourced under strict ethical standards, ensuring fair labour practices and environmentally responsible farming.

- **Long-Lasting and Low-Maintenance**

Polycotton is resistant to shrinkage, wrinkles, and wear. Its extended lifespan means fewer replacements, and its quick-drying nature reduces energy use during laundering.

- All factories meet ETI (Ethical Trading Initiative) base code as foundation members with regular auditing & reviews through our own staff in country following the SMETA methodology and SEDEX data monitoring.
- Any non-compliance or observations highlighted from the audit in the CAPR (Corrective Action Plan Report)
- Own employees in locations of factories as well as head office staff working closely with offshore teams
- Long term relationships with factories many five years +
